Education

University at Buffalo

B.S. in Information Technology and Management

Expected Spring 2028

- GPA: 3.6
- Additional Activities: National Student Data Corps at UB, Association for Computing Machinery

Certifications

- [CompTIA Security +](#) *June 2026*
- CompTIA Cybersecurity Analyst (CySA+) – In Progress *Expected Fall 2026*
- Air Force Cyber Defense Operations Training

Technical Skills

- Cybersecurity: Threat Mitigation & Incident Response, Vulnerability Assessment, Network Security, DoD Information Assurance, Identity & Access Management (IAM), Public Key Infrastructure (PKI), Cryptography, Secure Communications.
- Networking: TCP/IP, DNS/DHCP, VPN, Intrusion Detection & Prevention Systems (IDS/IPS), Network Troubleshooting
- Systems & Tools: Windows & Linux Administration, VMware, GitHub, Microsoft 365, Database Management, Data Analysis.
- Soft Skills: Operational Readiness, Problem Solving in High-Pressure Environments, Project Management, Technical Adaptability.

Projects

[Personal Portfolio Website](#) | *HTML, CSS, GitHub Pages*

- Designed and developed a terminal-inspired portfolio website from scratch using HTML and CSS to showcase technical skills, certifications, experience, and career objectives through a professional and interactive user interface.
- Implemented responsive layouts, interactive navigation, and modern styling techniques to optimize accessibility and usability across desktop and mobile devices while maintaining a consistent and user-friendly experience.
- Deployed and maintained the website using GitHub Pages, incorporating ongoing improvements and updates as additional certifications, technical projects, and cybersecurity knowledge are obtained.

Experience

Cyber Defense Operations (107th Attack Wing)

Niagara Falls, NY

Communications Squadron - Technical Support Specialist

July 2025 - Present

- Administer mission-critical DoD network infrastructure, applying Security+ principles to enforce Identity & Access Management (IAM) and strict access control models to maintain continuous operational security across all endpoints.
- Execute advanced threat mitigation protocols through rigorous technical training at Keesler AFB, configuring secure virtual lab environments using VMware and Linux to simulate and actively defend against complex real-world network intrusions.
- Monitor network traffic and troubleshoot vulnerabilities to ensure operational readiness, utilizing secure communications protocols (TCP/IP, VPN) to protect defense assets against unauthorized system access and external cyber threats.

Retail Operations Associate

Buffalo, NY

Wegmans Food Markets

June 2021 – June 2024

- Proficient in cash handling, Self-Checkout, Cart to Curb, Maintenance, and Helping Hands operations across various store needs
- Demonstrated strong teamwork and leadership skills by collaborating with peers and guiding tasks in high-demand retail settings
- Maintained 100% attendance and punctuality, earning recognition and advancing roles through consistent performance
- Consistently dependable, on time, accurate, and promoted for outstanding reliability, work ethic, and attention to detail

Management Associate

Falletta's Italian Restaurant

June 2024 - Present

- Resolved guest concerns with a 95% satisfaction rate, enhancing the overall dining experience and strengthening client loyalty
- Efficient in high-pressure environments, balancing speed with precision, professionalism, and strong multitasking skills
- Delivered 30% faster table service by streamlining order entry and coordinating efficiently with kitchen and bar staff
- Developed the ability to work efficiently in a fast-paced environment while maintaining attention to detail and professionalism
- Gained proficiency in handling cash and credit transactions, processing payments accurately, and balancing end-of-day reports

Founder of R & J Landscaping

R & J Landscaping

January 2024 - Present

- Launched a profitable landscaping business using Nextdoor to generate over 80% of client leads through hyperlocal marketing
- Achieved rapid revenue growth in the first season, earning over \$15,000 independently before expanding to a team-based model
- Hired and managed part-time employees to meet rising demand, increase service capacity, and improve client satisfaction
- Built a strong reputation through quality work, reliability, and word-of-mouth, leading to a 60% repeat customer rate
- Currently planning to formalize operations as an LLC and shift toward a strategic, managerial role focused on business expansion
